CAREER OBJECTIVE

Motivated Mechanical Engineering student at MIT Academy of Engineering (MIT-AOE) with interests in robotics, automation, drone technology, and product development. Eager to gain practical industry experience, strengthen technical skills, and contribute to engineering projects through hands-on learning and innovation.

EDUCATION

MIT Academy of Engineering (MIT-AOE), Pune

B.Tech – Mechanical Engineering

First Year CGPA: 7.6 | Expected Graduation: 2029

TECHNICAL SKILLS

- Arduino Programming & Interfacing
- Sensor Integration
- Fusion 360
- Engineering Drawing & Visualization
- Mechanical Design Fundamentals
- Manufacturing Process Fundamentals

PROJECTS

Smart Grass-Cutting & Water-Sprinkler Robot

- Developed an Arduino-based robotic system for automated grass cutting and water sprinkling.
- Integrated sensors, motors and control circuits.
- Participated in design, assembly, testing and troubleshooting.
- Applied concepts of robotics, automation and embedded systems.

EXTRACURRICULAR ACTIVITIES

Drone Club, MIT Academy of Engineering

- Active member of the college Drone Club.
- Participated in drone-related workshops, technical discussions and learning activities.

RELEVANT COURSEWORK

Engineering Mechanics, Engineering Graphics, Workshop Technology, Engineering Mathematics, Basic Electrical & Electronics Engineering

CORE STRENGTHS

- Analytical Thinking
- Problem Solving
- Quick Learner
- Innovation Mindset
- Teamwork
- Adaptability
